Application for License to Operate as a  
Competitive Electricity Provider

ORDER GRANTING LICENSE

WELCH, Chairman; NUGENT and DIAMOND, Commissioners

## **I. SUMMARY**

In this Order, we license The New Power Company to operate as a competitive electricity provider in Maine pursuant to Chapter 305 of the Commission's Rules.

## **II. APPLICATION**

On October 27, 2000, The New Power Company (New Power) applied to the Commission for a license to operate in Maine as a competitive electricity provider, as provided in Chapter 305. On October 31 and November 21, 2000, New Power filed additional information to supplement its earlier filing.

New Power's application shows that it is an affiliate of Enron Energy Services, Inc. (EESI). The Commission granted EESI a license as a Competitive Electricity Provider on June 15, 1999 in Docket No. 99-330, and subsequently amended that license on February 23, 2000 in Docket No. 2000-127.

### **A. Type of Service Proposed**

New Power proposes to sell electric service to the public at retail as a competitive electricity provider. New Power's application states that the proposed licensee plans to market electric power and related services to "residential and small commercial customers in all utility service territories in the State of Maine." New Power's application further states that the proposed licensee desires to provide Standard Offer service in Maine.

### **B. Fee Paid**

With its application, New Power paid a \$100 fee to the Commission, as required by section 2(C)(5) of Chapter 305.

## **III. FINANCIAL ISSUES**

A. Security

Section 2(B)(1)(a)(i) of Chapter 305 states that “a license will not be issued or remain in force until the applicant or licensee furnishes a surety bond or letter of credit” meeting the requirements of that rule. The initial security level is set by section 2(B)(1)(a)(ii) as \$100,000.

New Power has furnished a surety bond in the amount of \$100,000 as its security instrument, with supporting materials as required by section 2(B)(1)(a)(iv) of Chapter 305. We have reviewed that instrument and find that it conforms to the requirements of Chapter 305.

B. Showing of Financial Capability

We find that the security instrument provided by New Power as described above demonstrates that New Power has the financial capability to engage in its proposed business as a competitive electricity provider in Maine.

**IV. TECHNICAL ISSUES**

A. Showing of Technical Capability

New Power, as a competitive electricity provider in Maine, must demonstrate it has the technical ability to enter necessary interconnection arrangements or contracts with Maine utilities, pursuant to section 2(B)(2)(a) of Chapter 305. In its application, New Power provided information demonstrating its ability to enter into such arrangements or contracts, although it stated it had not yet reached such agreements. Accordingly, New Power shall not act to enroll consumers or provide generation service until all required contracts have been executed consistent with Commission rules. New Power shall notify the Commission when all such contracts have been executed.

Section 2(B)(2)(b) of Chapter 305 requires an applicant to demonstrate that it has the technical ability to secure generation or otherwise obtain and deliver electricity meeting all applicable requirements for the bulk power system control area in which the applicant would provide service. New Power filed information to demonstrate its technical capability to meet that requirement within the Northeast Power Coordinating Council control area. We have reviewed that information and find that it complies with the requirements of Chapter 305. New Power also documented that it will meet the NEPOOL transaction provisions required by section 2(B)(2)(b)(ii) of Chapter 305.

B. Resource Portfolio

Pursuant to section 2(B)(4) of Chapter 305, New Power, as a competitive electricity provider in Maine, must demonstrate its ability to meet the resource portfolio

requirement of 35-A M.R.S.A. § 3210 and the portfolio requirement reporting rules in Chapter 311 of the Commission's rules. New Power filed information to demonstrate its ability to meet these requirements. We have reviewed that information and find that it complies with the requirements of Chapter 305.

## **V. CONSUMER PROTECTION ISSUES**

### **A. Showing of Fitness**

In its application, New Power provided information required by Chapter 305 section 2(B)(3) related to enforcement proceedings and consumer complaints. We have reviewed that information and find that it meets the requirements of Chapter 305.

### **B. Ability to Comply with Consumer Protection Rules**

New Power provided information demonstrating its ability to comply with the applicable consumer protection requirements of Chapter 305 and other consumer protection requirements pursuant to 35-A M.R.S.A. Chapter 32 and other relevant provisions of Maine law. We have reviewed that information and find that it meets the requirements of Chapter 305.

### **C. Do-Not-Call List**

Chapter 305 section 4(I) states that "[t]he Commission will maintain or cause to be maintained a 'Do-Not-Call' list of customers who have requested -- orally, in writing, or by commercially accepted electronic means -- that they not receive telemarketing calls from competitive electricity providers." We require that licensees use do-not-call list mechanisms already in place nationally to satisfy that requirement. To the extent that it telemarkets to Maine consumers, New Power shall comply with the following requirements.

New Power must comply with the requirements of the Telephone Consumer Protection Act,<sup>1</sup> the Telemarketing and Consumer Fraud and Abuse Prevention Act,<sup>2</sup> and related rules of the Federal Communications Commission<sup>3</sup> and Federal Trade Commission.<sup>4</sup> New Power must comply with those requirements and must maintain its own do-not-call list as required by those laws and rules, for all intrastate and interstate telemarketing of Maine consumers, including both residential and business consumers. New Power shall not telemarket to Maine consumers on that list, as required in Chapter 305 section 4(I)(1). New Power shall update its do-not-call
